Sebastián Venegas

Computer Scientist

Phone: +506 7298-0826 **Email**: sebas.venegas.brenes@gmail.com **Portfolio** **LinkedIn**

SUMMARY

Computer Scientist with experience in software development, enterprise systems, and AI/ML. Strong foundation in algorithms, systems, concurrent programming, and data-driven applications, with hands-on experience developing and optimizing software solutions.

PROFESSIONAL EXPERIENCE

Epic IT Support Analyst | Mar 2026 – Present
Optimum Healthcare IT

Diagnose and resolve complex issues within Epic healthcare applications, managing access workflows and ticketing systems while ensuring SLA compliance. Maintain technical documentation and configure user roles and system security.

Mobile Application Developer | Mar 2024 - Present
Fabio Baudrit Moreno Agricultural Experimental Station of the UCR

Developed cross-platform mobile applications for Android and iOS using Java and SwiftUI, along with a web-based platform for managing application requests and administrative workflows. Collaborated with multidisciplinary teams in an Agile environment to deliver software solutions.

Information Technology Intern | Jun 2025 - Aug 2025
Deloitte

Provided technical support, troubleshot hardware and software issues, and assisted with internal IT systems and operations.

Artificial Intelligence Course Assistant | Mar 2025 - Jul 2025
University of Costa Rica (UCR)

Assisted in teaching AI coursework, guiding students through practical machine learning exercises, search algorithms, and natural language processing concepts.

PROJECTS

Operating Systems & Distributed Systems
Developed distributed systems in C++ using concurrency, TCP/UDP, and inter-process communication. Implemented system calls, synchronization, and virtual memory in NachOS.

Parallel Computing & Performance Optimization
Optimized a password-cracking application using KCachegrind for profiling and implemented static/dynamic work mapping to maximize execution speedup.

EDUCATION

Master's degree in Computer Science and Information
University of Costa Rica (UCR) | 2026 - 2028

Bachelor's degree in Computer Science and Information
University of Costa Rica (UCR) | 2021 - 2025

CERTIFICATIONS

Epic Prelude Certification - Epic Systems
Epic Grand Central Certification - Epic Systems
Lean Six Sigma White Belt - American Institute for Graduate Professionals in Engineering (AIGPE)

LANGUAGES

Spanish — Native
English — C1 (Advanced)
Portuguese — B2 (Upper-Intermediate)

SKILLS

Languages: C++, Python, JavaScript, TypeScript, C#, Java, SQL, Swift
Frameworks: React, Node.js, Express, FastAPI, TensorFlow
Cloud & DevOps: Azure, Docker, Kubernetes, Git, CI/CD pipelines
Data & Tools: Power BI, Tableau, NoSQL, Linux, REST APIs
